Name _____   Date _____

Use the RDW process to solve the following problems.

Item	Cost
1 balloon	26¢
1 lollipop	14¢
1 bracelet	33¢

1. The table shows the cost of party favors. Each party guest receives a bag with 1 balloon, 1 lollipop, and 1 bracelet. What is the total cost for 9 guests?
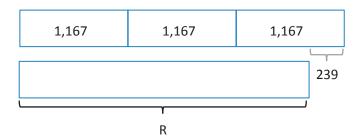

2. The Turner family uses 548 liters of water per day. The Hill family uses 3 times as much water per day. How much water does the Hill family use per week?

3. Jayden has 347 marbles. Elvis has 4 times as many as Jayden. Presley has 799 fewer than Elvis. How many marbles does Presley have?

EUREKA
MATH™

Lesson 12:   Solve two-step word problems, including multiplicative comparison.

63

4. a. Write an equation that would allow someone to find the value of R.

1,167	1,167	1,167

239

R

b. Write your own word problem to correspond to the tape diagram, and then solve.
